special technologies

pure edge.

THE HANDSOME ONE.

Attractive packaging made out of corrugated board. With flawless visible edges. That is what you get with the Marbach pure edge technology. pure edge is replacing functional rubbering with steel. For optimal compression of the corrugated board. Perfect cutting. No dust. No angel hair. Less wear and tear. And therefore more consistent results. Over an incredibly long period of time. Your benefit: no waste. And no production stops because of worn-out parts.

clean visible edges

consistent results

very durable
