

Digitalization.

CONNECT|AR

Smart Service.

In the age of industry 4.0, we are leading the way as innovation drivers. With our digital solutions for thermoforming processes and services. This is why we are part of a virtual customer support project. With AR data glasses. We are building a network. Together with partners of the European Thermoforming Division.

With the help of Augmented Reality, we offer effective customer support.

With Realwear HMT-1 data glasses. Glasses for rent available in China, USA, Europe and South-East Asia.

Best support from experts. Worldwide. With data glasses.

App available for iOS and Android.

Connect via data glasses. Computers. Tablet. Or smartphone.

Cloud service.

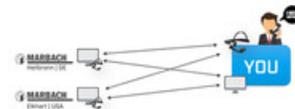

To be prepared for the future.

Get support when you need it. Fast and uncomplicated.

Save on travel costs. And time.
