

Special tools.

3D-cutting tool.

THE THREE-DIMENSIONAL ONE.

Two-dimensional die-cutting is not enough for you? Then simply die-cut in the 3rd dimension. Bevels. Or different levels. With the Marbach 3D-cutting tools there are no limits. For cutting plastics. For packaging trays. The dieboard is milled from aluminium. With contour-adjusted steel rule knives. For perfect 3D contour cuts.
