Nick changing system.

THE FLEXIBLE ONE.

Flexibility in its ultimate form. You can react rapidly to changing conditions in the material with our Marbach nick changing system for corrugated board. Depending on the condition of the board you will need a varying amount of nicks. Thanks to the Marbach nick changing system you can adjust your dies in almost no time. Without grinding nicks. Without dust. Very hygienic. The system comes in a handy case.

shortened start-up phase

multiple rule changes

no grinding dust
