

Counter plate

marbagrid.

THE ECONOMICAL ONE.

The budget for your order is small, but a beautiful package is still the main goal? Then marbagrid counter plates are the right thing for you. A steel plate – not milled. But laser cut. Yes, creasing channels can be laser cut. Marbach laser equipment has adequate power. And precision. Great performance. At a good price. This is a perfect compromise. For everybody that would like more than rillma.

optimal cost-benefit ratio

for all demands

good performance
