

Thermoform technology SR.

## Silverline 23.8 steel-rule

The Marbach Silverline 23.8. Heart of Marbach's SR technology. In combination with the Marbach free-flow holding system. This coated cutting line is extremely sharp. And still very pressure-resistant. Its thin shape ensures highest contour accuracy. Especially three features make it strong. Its coating. Its sharpness. And its flexibility. So no make-ready time is needed. And ensures complete success. And best performance.
