

Blanking presser

marbapusher|p blanking presser

The pusher marbapusher|p can be used for both presser plates and custom-shaped presser bars of [blanking tools](#). The presser has a high degree of flexibility for the customer, is durable and doesn't take up a lot of storage space when storing the blanking tool.

Thanks to its special design, a tool with a presser plate can be used in every kind of machine frame. So the waste grid is better fixed in position during the blanking process and higher machine speeds are possible. Moreover the marbapusher|p is being produced with long-life material which significantly increases life-span compared to other pressers in telescope version.

long life span

designed for highest machine speeds

fits everywhere, very little space necessary
