Corrugated Performance System – Rotary (CPS-R).
Your solution for maximum performance!

MARBACH

NEW:
The Corrugated Performance System - Rotary (CPS-R).

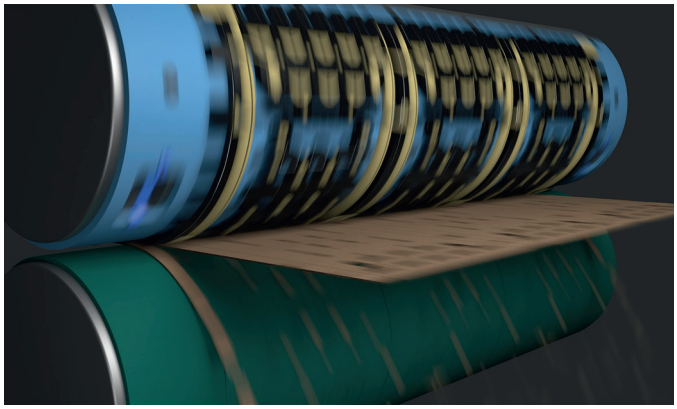
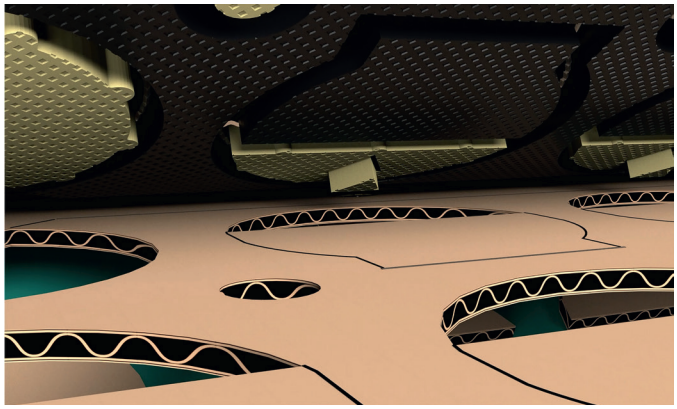
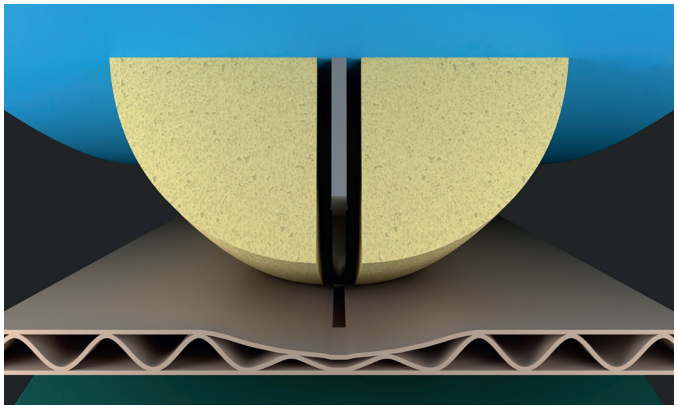
CORRUGATED PERFORMANCE SYSTEM – ROTARY (CPS-R).

PERFECTLY DIE-CUT. PERFECTLY PRODUCED.

Would you like the highest demands in packaging production? No problem! With the CPS-R, you will achieve new standards in performance and cost-effectiveness.
Thanks to sophisticated laser technology, high-quality materials, and intelligent assembly specifi cations, the CPS-R ensures dimensionally accurate, functional, and waste-free packaging – even at the highest machine speeds.







CORRUGATED PERFORMANCE SYSTEM – ROTARY (CPS-R).

Exclusive at Marbach!
Productive. Precise. And durable.

The CPS-R is a standardized high-performance system for the rotary processing of corrugated board. It guarantees stable, durable, and economical die-cutting processes – regardless of machine type or production location.

YOUR ADVANTAGES:

- **Highest productivity** – maximum machine performance with reduced set-up times.
- **Long service life** – thanks to low-wear materials and optimized technology.
- **Perfect packaging** – waste-free, functional, and dimensionally stable.
- **Cost efficiency** – reduced abrasion and wear lower your production costs.
